

LA-MC-ICP-MS Hf

^{176}Yb on ^{176}Hf was corrected by measuring the interference-free ^{173}Yb isotope and using a recommended $^{176}\text{Yb}/^{173}\text{Yb}$ ratio of 0.79381 (Fisher et al. 2014) to calculate $^{176}\text{Hf}/^{177}\text{Hf}$
